## ROCK CREEK PLACERS

A Review of the Mines There by D. A. Spraker of This City.

## BIG CLEAN-UPS EXPECTED

Detailed Account of the Operations in that Vicinity—Lots of Water in Places and Scarce in Others.

A very interesting personal letter has been received from D. A. Spraker of this city, who is now engaged in the development of placer ground in Quartz gulch, in the Rock creek country. He writes under date of June 11, and gives a detailed account of the mining operations in the vicinity.

"Gold was discovered in this gulch three years ago this month on what is now the Homestake claim by Sim Shively, who did not think the ground worth locating. He told what he had found to Messrs. Allen and Speer. They came and prospected the canyon from its mouth to its head and located some of the best claims in the neighborhood. About two years ago they found a six ounce nugget in one of their claims.

"At the mouth of Quartz gulch the first claims being worked are the Eureka Consolidated Mining company's ground, which consists of eight claims. Ten men are employed in hydraulic work and a 25-inch sluice. The prospects are very good for a rich clean up. The Homestake is being worked by a force of seven men. It has been necessary to do a great deal of dead work this season on this claim as a reef of hard rock had to be cut for a sluice way. There was also a rim of iron to contend with which gave some trouble. These obstacles and difficulties have been overcome and now work is progressing in very good ground. The bed rock is being cleaned and piling laid, but this will be completed in a few days and the entire attention will be given to the bed rock. A clean up of several ounces is expected.

"Allen & Speer are about 3,000 feet above the Homestake. They have stripped 150 feet and will clean the bed rock before the water gives out. The claims between the Homestake and Allen & Speer are not being worked this season. They have been well prospected and are known to be good paying claims, but owing to the flat lay of the land there is no dumping ground which can be used until the claims below them are worked out.

"Basin gulch is separated from Quartz gulch by only a small hill. They head close together in the mountains and run together about half a mile from the mouth of Quartz gulch. More work is being done in Basin gulch than in Quartz gulch. Jack White is working alone on the first claim at the head of the gulch and is doing well.

"The next property receiving attention is that of J. T. Pardee, under a lease to W. S. Twohy, who is making money. Allen & Speer own the adjoining claim, which is the best that has yet been discovered in the gulch. They can pick up nuggets in the gravel where the ground sluice was when they were stripping the ground. They are now cleaning bed rock and are taking out more gold than any man in the camp.

"A crew of three men, one a Chinaman, is employed by Sam Watson, who declined to make any report of his claims or the work in progress. He is undoubtedly doing well. The next claim is that of Sim Shively, who has six men cleaning bed rock. He has a handsome sum of gold already as the result of his work, which is a sight for poor eyes. There are some pieces as big as \$5 and \$6. Messrs. Pardee and Landers are handicapped by a limited supply of water, though they think it will last until they can clean up what ground they have stripped. In Quartz gulch there is much more water than in Basin gulch, and though there will be water with them to work for three or four weeks yet."

## WEDDED IN MARYLAND.

A Beautiful Wedding in an Eastern City—A Western Bride.

An account of the marriage of Miss Frances M. Burns, who formerly made Anaconda her home, with her parents, Mr. and Mrs. W. H. Burns, is taken from the Maryland Republican printed at Annapolis. Among the guests were Mr. and Mrs. George B. Winston of this city, and many prominent people of Maryland, and the United States navy.

"A beautiful wedding was solemnized at St. Anne's P. E. church, Tuesday, the contracting parties being Nicholas Harwood Green of Annapolis and Miss Frances M. Burns, daughter of William Burns. The Rev. Dr. W. S. Southgate performed the ceremony. The maid of honor was Miss Smith of Cincinnati, O., and the best man J. A. Walton of Annapolis. The bridesmaids were Miss Evelyn Green, Miss Florence Fay, Miss Ellen B. Glassaway and Miss Elizabeth Clason, and the ushers were Messrs. T. Kent Green, Frank A. Munroe, Thomas L. Brewer, W. L. Burns, W. Meade Holladay of Annapolis, and Charles Edwards of Baltimore. Master John Green, a young brother of the groom, held the ribbon. The bridal party was preceded up the aisle by a wedding procession of young ladies headed by Mrs. Edwin D. Pusey.

"The ushers led the bridal party, followed by the bridesmaids, and with Miss Smith immediately preceding the bride, who was leaning on her father's arm. As the party approached the chancel step the bride was met by the groom, and they were then betrothed according to the old English custom, the father of the bride giving her away. The officiating minister then took the bride and led her to the altar, where a semi-circle was formed by the bridal party and the ceremony was performed.

"The groom was in full dress and the bride was attired in a gown of white satin, her veil being caught with natural sweet peas; her bouquet was composed of bride roses and white sweet peas. Miss Smith wore white organza over white tulle and carried a bouquet of white roses with pink sweet peas. The bridesmaids wore white organza over pink and their bouquets were of La France roses and pink sweet peas. The chancel was elaborately dressed with palms, flowers and flowering plants, as was also the house of the bride's parents, the combination of which was artistically done by E. A. Seidewitz, whose taste in the arrangement was most exquisite.

"A reception was held at 'Burnside' from 1:30 to 3:30, where Mr. and Mrs. Burns, and Mr. and Mrs. Green, assisted by the bridal party, received the guests. Others assisting were Mrs. Colvocoresses, Mrs. Fell, Mrs. Munroe, Mrs. Gassaway, Mrs. Bates and Miss Bennett.

"The reception at the home was largely attended and a delicious luncheon was served, Bernard Wiegand being the caterer. Music at the house was furnished by an orchestra of eight pieces under the leadership of Professor Zimmerman. The orchestra was stationed in a hall between the parlors and the dining rooms and was literally embowered in palms and plants which served as a guard to prevent contact with the large crowd of visitors and discouraged sweet music during the time of the reception.

"The tables were beautifully decorated with flowers and plants, the centerpiece being composed of a mound of pink carnations in separate bouquets and each bouquet being tied with a ribbon upon which the date of the wedding and the initials of each one of the wedding procession were hand-painted; which bouquets were presented to them at the conclusion of the luncheon as souvenirs of the occasion.

## MME. YALE'S HAIR TONIC

LADIES AND GENTLEMEN. It affords me great pleasure to call the attention of the public to my Excelsior Hair Tonic, which is the first and only remedy known to chemistry which positively turns gray hair back to its original color without dye. It has gone on record as being the most valuable and scientific of all chemical discoveries for the hair, and I personally endorse its action and give the public my solemn guarantee that it has been tested in every conceivable way, and has proved itself to be the ONLY Hair Specific. It STOPS HAIR FALLING and cures Dandruff within a few days, and creates a luxuriant growth. Contains no injurious ingredients, and is not sticky or greasy; on the contrary, it makes the hair soft, youthful, fluffy, and keeps it in curl. For gentlemen and ladies with hair prematurely gray, a little gray, streaked hair, entirely gray, and with BALD HEADS, it is especially recommended.

All druggists and dealers sell it. Price \$1.00, 6 for \$5.00. Beauty Book sent free to all who request it. MME. M. YALE, Health and Complexion Specialist, Yale Temple of Beauty, Chicago.
